Five vessels from San Francisco were
in Hilo bay when the Kinau left for
Honolulu.

The branch of the First American
bank in Hilo expects to be open for
business today.

The sub-inspectors of the Citizens'
Central Committee are doing very
thorough work.

Dr. Davis, a newcomer, is Board of
Health physician at the Waiakamilo
detention camp.

Dr. A. N. Sinclair has resumed prac-
tice at School street, between Emma
and Fort streets.

On her eventful trip to Hilo the Ki-
nau lost an anchor and fifteen fathoms
of chain at Mahukona.

Hereafter and until further notice
there will be but one session of the
Stock Exchange each day at 11 o'clock.

A Hilo correspondent writes: "The
Irvingard has not shown up yet although
he sailed from Honolulu last Thurs-
day."

Says a Hilo correspondent: "Sixteen
teams were counted at one time car-
ting water from Hilo to Olan for planta-
tion use. There is a great shortage at
the latter place."

The James Make reports 30,000 bags
of sugar at Kaula. The W. G. Hall
was loading at Kaula yesterday and the
Nihou was discharging at Eleele. Rough
weather on Kaula.

The Le Munyon Photo Supply Co.
will receive on the Australia the largest
line of moulding that ever came to
Honolulu, also the latest machinery to
make up same into frames.

C. F. Saylor, the visiting agent of the
Department of Agriculture, intends
returning to the Coast in the Australia.
He cannot get around the islands,
and has work to occupy him on the
Mainland.

Since the people of Hilo have decided
on rigid measures against island
steamers from Honolulu, what the Ki-
nau is to do is a matter of surmise.
Asked the question this morning,
President Wright of the Wilder Steam-
ship Co., answered: "I do not know."

FROM PROFESSOR KOEBELE.

By the Milwaukee yesterday Commis-
sioner of Agriculture David Haugha
received from Prof. Koebele a letter
dated Brisbane, January 3, 1900, in
which further information regarding
the Mediterranean fly, the enemy of all
citrus fruits, is given. Prof. Koebele is
still more decided in his opinion given
some time ago and acted on immedi-
ately by Mr. Haugha, that the only way
to keep the pest out of the islands is
by strictly prohibiting the importation
of any citrus fruits from the Colonies
where the fly is known to thrive.

In speaking further about the pest
Prof. Koebele makes the statement
that all Mexican oranges received in
California are burned on account of
the existence in Mexican cities of a fly
closely allied to the Mediterranean
species.

Prof. Koebele has promised to send
forward by the Alameda a large con-
signment of valuable seeds and insects.

"Me No Save You."

"Me no save you." is the statement
that one of the sub-inspectors ran up
against at the house of a Chinaman in
Kalihi yesterday afternoon. The in-
spector showed his badge bearing the
words: "Citizens' Sanitary Commit-
tee," but the Chinaman simply said:
"Mebbe you pick him up in street.
You no got paper? Spose paper, ol-al.
The inspector saw the point and made
the statement later that each man went
out should have a paper on his inside
pocket signed by the people in author-
ity."

Worthy of Consideration.

One of the sub-inspectors suggests
that disinfectants should be furnished
free to all who may require them, on
the recommendation of sub-inspectors.
He had found people to whom he had
prescribed disinfecting of their prem-
ises, who did not seem to be able to pay
for the material.

NO HONOLULU INTEREST.

Regarding a Coast report that Tom
L. Johnson, the single tax advocate and
electric railway man, was coming to
the islands in the interest of a Hono-
lulu electric railway franchise, it is
found that he has no connection with
either of the two companies having
franchises in Honolulu. Mr. Ballen-
tyne, manager of the rapid Transit
Company, thinks Mr. Johnson may
have an interest in the mooted propo-
sition to connect Hilo and Kohala with
an electric railway.

"Whoever wrote up the reference to
Mr. Johnson," Mr. Ballentyne said,
"was badly mixed on Hawaiian geogra-
phy, as he talked about a railway from
Honolulu to Hilo."

SUGAR TRUST ACTION.

New York, Jan. 10.—The stockhold-
ers of the American Sugar Refining
company approved today the action
taken by the directors yesterday, em-
bodying in the following:

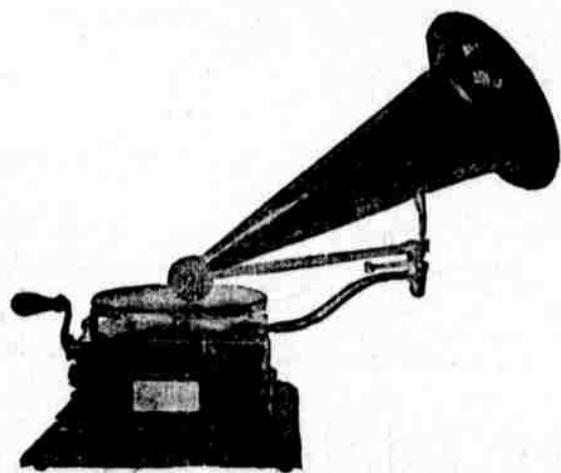

"Resolved, That the accumulated
profits less the dividend which has been
declared up to this time, including the
dividend of January 2, 1900, be reserved
as working capital, less such amount as
the directors see fit from time to time
to declare as dividends."

When the election of officers was
taken up H. O. Havensmeyer, Arthur
Bonner and John Mayer were elected
directors.
